

lightning

Consensus loudspeakers are designed to reproduce in an extremely natural, dynamic and realistic way, offering impressive soundstage, basscontrol and timecoherence to set landmarks in audio reproduction.

It is a »Premium«-grade speaker owing many features to our top-of-the-line model »conspiracy«.

Its high efficiency, linear impedance behavior and minimal phase shifting equally suit for combination with single ended triode as well as transistor amplification. Unconventional design solutions and perfect craftsmanship make them outstanding in many respects.

The »lightning« speaker is designed as a 2-way System. Innovative AIRFLOW and RESONANCE technologies and the best available components have been used by our designers to create loudspeakers which combine »OLD-WORLD CRAFTSMANSHIP with CUTTING EDGE ENGINEERING«.

At CONSENSUS AUDIO ENGINEERING we stand for a pure, timeless design which integrates perfectly into high quality interior design concepts of the speaker itself and domestic environments as well.

Colours

- Standard Colour ETIMO
(for best sound = very hard African wood veneer)
- Maple (wood veneer)
- Black Piano Finish and all others on request.

Specifications

Speaker	lightning se
System	3-way Airflow Damping
Cabinet	Resonance optimized plywood materials
Driver Arrangement	1 x 1.2" Ceramic Tweeter Optional 1 x 1.2" Black Diamond Tweeter 3 x 7" Ceramic mid Woofer Basket spiders & magnets airflow optimized (Custom-made by Accuton for CONSENSUS)
Impedance	5 Ohm
Sensitivity	91 dB
Recommended Amp Power	15–200 Watt
Frequency Response	28 Hz–35 kHz/–3 dB
Single-Wire Terminal	WBT – Germany Goldline
Crossover Parts	Custom-made by Mundorf – Germany
Internal Wire	Handmade by Music Link Under licence of Shunyata Research
Dimensions (H x W x D)	112 x 27 x 41 cm - 44 x 10 x 17 inch
Weight (per piece)	35 kg - 77.2 lbs
